Process Instrumentation & Engineering Co., manufacturing, sales and supply “PIECO” brand sequential timer suitable for Industrial dust collecting bag filters. “PIECO” sequential timer an electronics device or timer through which one Solenoid valves for air pulsing operated within a particular time given and continuously operate as required.

Sequential Timer

Process Instrumentation & Engineering Co. manufacturing, sales and supply “PIECO” sequential timer cards as-

Type : PIECO/SQ/10-Ch

Chanel Out Put: Maximum 10 Chanel.

Chanel Out-Put Setting: Through Jumper on front and step will be change on front from 2 to 10 ch.

Time ON: Pulse frequency Range can be adjustable 20 to 200 millisecond.

Time OFF: Pulse frequency Range can be adjustable 2 to 60 Second.

Main Line Indication : LED light.

Out-Put Channel Indication: LED Red color light.

Time Setting : Through Preset pot in front for OFF and ON time setting.

Step type : Sequential and after another and revert.

Field Wiring Procedure:

A 26-POINT terminal **or** suitable equivalent type block for connection of conductors is provided ion the time for convenient wiring of the control power, loads and remote contact whenever applicable.

Wiring diagram illustrates, where all necessary wiring should be made. Load should be wired in desired sequences as needed. Only **after all connection** has been re-checked, should power be applied to the controller.

Note: Sequential timer card should not used in field without proper **protective enclosures**. Sequential timer card should not operate without proper volt/amp **glass fuse**.

Order Process

ModeNo	In put Voltage	Out put Voltage	Tota Chanel
PIECO/SQ/220/220/10	220 V A/c.	220 V A/c.	10
PIECO/SQ/220/110/10	220 V A/c.	110 V A/c.	10
PIECO/SQ/220/24/10	220 V A/c.	24 V A/c./D/C	10
PIECO/SQ/110/110/10	110 V A/c.	110 V A/c.	10
PIECO/SQ/110/24/10	110 V A/c.	24 V A/c.	10
PIECO/SQ/24/24/10	24 V A/c./DC	24 V A/c./DC	10
** Also 18, 24, 28, 32 output channels on Request.			

When you or Purchaser ordering “PIECO” Sequential timer Cards please go through our model number i.e. Your required (1) In-Put-Voltage, (2) Out-Put-Voltage, Out-PUT-Sequence for Solenoid Valves.

Sequential Timer Card by Process Instrumentation & Engineering co “PIECO” unique for its quality and commercially economy and also ready available spares.

If any complain arises against manufacturing defects within a very short period it can be replace or repair (at Rourkela,Odisha, India) works only.

Any Enquiry / Technical / Details may contact:**Process Instrumentation & Engineering Co.**
